Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on application filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Apr. 17, 1989. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the patent.

Attention is drawn to the patents which were issued on Apr 22, 1986, for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,583,246 through 4,584,720
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on April 20, 1982 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,325,148 through 4,326,298
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

The current amounts of the maintenance fees due at 3 years and six months and seven years and six months are set forth in 37 CFR 1.20(e), (f), (h) and (i), as ammended effective Apr. 17, 1985, which are reproduced below:

37 CFR § 1.20 Post-issuance fees

"(e) For maintaining an original o r reissue patent, except a

design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant.....$245.00"

"(f) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 8 years; the fee is due by seven years and six months after the original grant.....$495.00"

"(h) For maintaining an original or reissue patent except a design or plant patent, based on an application filed on or after Aug. 27,1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§1.9(f)).....$ 245.00
By other than a small entity.....$ 490.00"

"(i) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 8 years; the fee is due by seven years and six months after the original grant:

By a small entity (§1.9(f)).....$495.00
By other than a small entity.....$990.00"

The amounts of the surcharges as amended effective Apr. 17, 1989, are set forth in 37 CFR 1.20 (k), (l) and (m) which are reproduced below:

"(k) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months , seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982.....$120.00"

"(l) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of threee years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Aug. 27, 1982:

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a main tenance fee where the delay is shown to the satisfaction of the Commissioner to have been unavoidable.....$550.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid. According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Patent Cooperation Treaty (PCT) Update Accession to the Patent Cooperation Treaty (PCT) by Burkina Faso

The United States Patent and Trademark Office has received notification from the World Intellectual Property Organization (WIPO) that Burkina Faso deposited its instrument of accession to the PCT on 21 December 1988.

Therefore, according to PCT Article 63(2), Burkina Faso may be designated in international applications filed on and after 21 March 1989.

It should be noted that since BUrkina Faso is a member of the African Intellectual Property Organization (OAPI), any designation of Burkina Faso has the effect of a designation of that country for the purposes of a regional patent issued by OAPI in Yaounde, Cameroon.

See listing of PCT Member Countries on next page.

*Members of African Intellectual Property Organization (OAPI) regional patent system. Only regional patent protection is available for OAPI countries. A designation of any country is an indication that all OAPI countries have been designated. Only one designation fee is due regardless of the number of OAPI member countries designated.

**Member of European Patent Convention (EPC) regional patent system. Either national or European patents for member countries are available through PCT, except for France, Belgium and Italy, for which only European patents are available if PCT is used. Note: Only one PCT designation fee is due if European regional patent protection is sought for one, several or all EPC member countries under the PCT.

v. Disciplinary Proceeding
No. DP87-02

Gerald L. Lett,
Respondent

Final Order

On June 9, 1987, the Director of the Office of Enrollment and Discipline filed a disciplinary complaint against respondent, Gerald L. Lett, pursuant to 37 CFR § 10.134. While proceedings were pending before the Administrative Law Judge, the Director and respondent reached a settlement. The settlement has been approved.

The complaint charges respondent with 46 counts of misconduct under the Patent and Trademark Office Code of Professional Responsibility. The charges include neglect of legal matters, making misrepresentations to his clients and to the PTO and billing clients for services which were not rendered. As part of the settlement agreement, respondent pleaded guilty to Counts 7 to 9, 12 to 23, 26 to 36 and 38 of the complaint. The remaining counts have been previously waived or waived as part of the settlement agreement.

The Director also found that respondent's alcoholism caused the misconduct, that respomdent began treatment for his alcoholism in January of 1988 and is currently in treatment for his alcoholism. In view of respondent's alcoholism, the Director recommends that respondent be excluded from practice for five years but that the execution of exclusion be stayed and that the respondent be placed on probation for those five years.

In view of the settlement agreement, it is ordered that respondent, Gerald L. Lett, whose Registration No. is 24,509, is excluded from practice before the Patent and Trademark Office, in all cases, for a period of five years. Execution of the exclusion is stayed and respondent is placed on probation for a period of five (5) years. The terms of probation are set forth in paragraph 11 of the settlement agreement approved March 7, 1989. The conditions of probation include the following:

1. Gerald L. Lett will completely abstain from alcohol and drugs other than over-the-counter medicines and those pre scribed by a physician.
2. Gerald L. Lett will continue counseling for alcoholism for the probationary period.
3. Gerald L. Lett's abstainence and continued counseling will be verified by a sobriety monitor who has the right to require respondent's attendance at Alcoholics Anonymous as well as other counseling or treatment for the probation ary period.
4. Gerald L. Lett's professional conduct relating to his current corporate employer will be supervised by a practice monitor or monitors.
5. Gerald L. Lett's practice subsequent to or in addition to his current corporate employer, will be in association with or under the supervision of another attorney who will act as practice monitor and supervise and monitor such practice, including financial and billing matters, and he irrevocably grants such other attorney access to his professional and personal financial records for the period of probation.
6. Gerald L. Lett irrevocably authorizes the monitors to disclose information regarding compliance with and any violation of the probation or any occurrence of misconduct to the Director.
7. Any violation of probation or any occurence of misconduct during the probationary period will result in immediate exclusion from practice.

Subject to the conditions of probation, Gerald L. Lett may continue to practice before the Patent and Trademark Office.

It is further ordered that this final order be published forthwith in the Official Gazette. All medical records, counseling records and monitors' reports shall remain confidential pursuant to 37 CFR § 10.159(c).

Entry of this order terminates the disiplinary proceeding. This order is being entered pursuant to 35 U.S.C. § 32 and the Commissioner's inherant authority to exclude individuals from practice in non-patent cases. 5 U.S.C. § 500(d)(2) and Herman v. Dulles, 205 F.2d 715 (D.C. Cir. 1953).

PATENT AND TRADEMARK OFFICE

Extension of Existing Interim Orders

Agency: Patent and Trademark Office, Commerce
Action: Extension of Existing Interim Orders
Summary: The Assistant Secretary and Commissioner of Patents and Trademarks has determined that the existing interim orders should be extended until Oct. 31, 1989, due to the Diplomatic Conference on the Protection of the Layout-Designs of Integrated Circuits to be held in Washington in May, 1989.
Date: Existing interim orders are hereby extended until Oct. 31, 1989.
Address: Address correspondence to Assistant Commissioner for External Affairs, United States Patent and Trademark Office, Box 4, Washington, D.C. 20231
For Further Information Contact :Michael K. Kirk, Assistant Commissioner for External Affairs, United States Patent and Trademark Office, Box 4, Washington, D.C. 20231, phone (703) 557-3065
Supplementary Information: : Under the Semiconductor Chip Protection Act of 1984 (SCPA) the Assistant Secretary and Commissioner of Patents and Trademarks has been delegated the tasks of determining when and under what conditions foreign mask works will be eligible for interim protection in the United States. To be eligible for interim protection, it must be established that a foreign government is making good faith efforts toward establishing a regime of protection substantially similiar to that which is provided under the SCPA.

Thus far, the Assistant Secretary and Commissioner of Patents and Trademarks has issued interim orders extending protecton to 18 States. Among those countries, several now have laws in place, including Japan and Sweden. On Sept. 16, 1988, 53 FR 36089, the Commissioner initiated an evaluation concerning the issuance of Presidential proclamations for Japan and Sweden.

As Representative Robert W. Kastenmeier, Chairman of the House Subcommittee on Courts, Civil Liberties and the Administration of Justice noted, the transition provisions in section 914 were "intended to encourage the rapid development of a new worldwide regime for the protection of semiconductor chips."

133 Cong. Rec. E1283 (daily ed. Apr. 6, 1987). These provisions empowered the Executive Branch to use the issuance of interim protection orders under section 914 of the SCPA as a means to encourage other nations to move speedily to establish substantially similiar systems of protection.

The Congress extended the authority to issue interim orders until July 31, 1991 in the belief "this process is promoting the protection of U.S. mask works abroad," and that "[t]he speedy enactment of laws in Japan and Sweden, patterned after American law, is not only a sign of progress, but a great compliment to the United States Congress." H.R. Rep. No. 100-388 100th Cong. 1st Sess. (1987). In that report, the Congress also noted the "serious preparatory work" that is under way in the World Intellectual Property Organization "leading to the creation of a new multilateral treaty for the protection of layout designs of integrated circuits" and that the United States had offered to host a Diplomatic Conference for the conclusion of such a treaty.

During the time since the hearing, pursuant to which the interim orders for the Member States of the European Community, Australia, Canada, Finland, Japan, Sweden, and Switzerland were extended to expire on May 31, 1989, these countries have closely cooperated with the United States to work toward the establishment of a new treaty for the international protection of mask works in the World Intellectual Property Organization. In fact, a Diplomatic Conference for the negotiation of a Treaty on the Protection of the Layout-Designs of Integrated Circuits will be held in Washington during the month of May. It is expected that these countries will be occupied with preparation for their participation in the Diplomatic Conference and initiating a proceeding for the extension of the interim orders would only detract from these efforts.

No complaints have been received concerning unauthorized reproduction of mask works in any of the countries to which interim orders have been extended.

Consequently, in order to promote the development of international comity through the negotiation of this important new treaty, the existing interim orders for these countries are extended to expire on Oct. 31, 1989.

This extension of the orders will promote the orderly conduct of the Diplomatic Conference. The extension until Oct. 31, 1989, will allow the United States to evaluate the effectiveness of participation of these States in the Diplomatic Conference, and to determine whether further proceedings under section 914 will be necessary, or to determine whether the orders should be extended in the anticipation of the Treaty coming into effect.

DEPARTMENT OF COMMERCE
PATENT AND TRADEMARK OFFICE

Interim Protection for Mask Works of Nationals, Domiciliaries, and Sovereign Authorities of Austria

Agency: Patent and Trademark Office, Commerce
Action: Notice of Initiation of Proceedings
Summary: The Secretary of Commerce has delegated the authority under section 914 of title 17 of the United States Code to make findings and issue orders for interim protection of mask works to the Assistant Secretary and Commissioner of Patents and Trademarks by Amendment 1 to Department Organization Order 10-14. Guidelines for the submission of petitions for the issuance of interim orders were published in November 7, 1984, in the *Federal Register*, 49 FR 44517-9, and on November 13, 1984, in the *Official Gazette*, 1048 O.G. 30.

On March 7, 1989, the Patent and Trademark Office received a petition for the issuance of an interim order from the Austrian Patent Office. Consequently, in accordance with paragraph F of the guidelines, this notice announces the initiation of an interim order.

In the interests of time, a date is being set for the submission of comments in accordance with paragraph F(a), and a public hearing is being scheduled.

Dates: Comments and requests to testify must be received in the Office of the Commissioner of Patents and Trademarks before 5:00 P.M. on April 25, 1989. A public hearing has been scheduled for May 4, 1989, at 1:00 P.M.

Address: Address written comments to: Commissioner of Patents and Trademarks, Attention: Assistant Commissioner for External Affairs, Box 4, Washington, D.C. 20231. The hearing will be held in the Commissioner's Conference Room, 9th Floor, Crystal Park Building 2, Room 912, 2121 Crystal Drive, Arlington, Virginia.

Materials submitted and a transcript of the hearing will be available for public inspection in Suite 902, Crystal Park Building 2, 2121 Crystal Drive, Arlington, Virginia.

For Further Information Contact: Michael K. Kirk, Assistant Commissioner for External Affairs, by telephone at (703) 557-3065 or by mail marked to his attention and addressed to Commissioner of Patents and Trademarks, Attention: Assistant Commissioner for External Affairs, Box 4, Washington, D.C. 20231.

Supplementary Information: Chapter 9 of title 17 of the United States Code establishes an entirely new form of intellectual property protection for mask works that are fixed in semiconductor chip products. Mask works are defined in 17 U.S.C. 901(a)(2) as:

"a series of related images, however, fixed or encoded

(A) having or representing the predetermined, three-dimensional pattern of metallic, insulating or semiconductor material present or removed from the layers of semiconductor chip product; and

(B) in which series the relation of the images to one another is that each image has the pattern of the surface of one form of the semiconductor chip product.".

Chapter 9 further provides for a 10-year term of protection for original mask works measured from their date of registration in the U.S. Copyright Office, or their first commercial exploitation anywhere in the world. Mask works must be registered within 2 years of their first commercial exploitation to maintain this protection.

Foreign mask works are eligible for protection under this chapter under basic criteria set out in section 902; first, that the owner of the mask works is a national, domiciliary, or sovereign authority of a foreign nation that is a party to a treaty providing for the protection of the mask works to which the United States is also a party, or a stateless person wherever domiciled; second, that the mask work is first commercially exploited in the United States; or that the mask work comes within the scope of a Presidential proclamation. Section 902(a)(2) provides that the President may issue such a proclamation upon a finding that:

"a foreign nation extends to mask works of owners who are nationals or domiciliaries of the United States protection (A) on substantially the same basis as that on which the foreign nation extends protection to mask works of its own nationals and domiciliaries and mask works first commercially exploited in that nation, or (B) on substantially the same basis as provided under this chapter to mask works (i) of owners who are, on the date on which the mask works are registered under section 908, or the date on which mask works are first commercially exploited anywhere in the world, whichever occurs first, nationals, domiciliaries, or sovereign authorities of that nation, or (ii) which are first commercially exploited in that nation.

Although this chapter generally does not provide protection to foreign owners of mask works unless the works are first commercially exploited in the United States, it is contemplated that foreign nationals, domiciliaries, and sovereign authorities may obtain full protection if their nation enters into an appropriate treaty or enacts mask works protection legislation. To encourage steps toward a regime of international comity in mask works protection, section 914(a) provides that the Secretary of Commerce may extend the privilege of obtaining interim protection under chapter 9 to nationals, domiciliaries and sovereign authorities of foreign nations if the Secretary finds:

"(1) that the foreign nation is making good faith efforts and reasonable progress toward —

(A) entering into a treaty described in section 902(a)(1)(A), or

(B) enacting legislation that would be in compliance with subparagraphs (A) or (B) of section 902(a) (2); and

(2) that the nationals, domiciliaries and sovereign authorities of the foreign nation, and persons controlled by them, are not engaged in the misappropriation, or unauthorized distribution or commercial exploitation of mask works; and

(3) that issuing the order would promote the purposes of this chapter and international comity with respect to the protection of mask works."

On March 7, 1989, a petition for the issuance of an interim order under 17 U.S.C. section 914 was submitted to the Commissioner by the Austrian Patent Office on behalf of the Austrian Government. The petition, in the form of a letter from Dr. Josef Fichte (President of the Austrian Patent Office) and a copy of the Austrian Federal Law of June 23, 1988 on the Protection of the Topographies of Microelectronic Semiconductor Products is sufficient to permit the initiation of proceedings under the guidelines and is reproduced as part of this notice.

In remarks reported at 49 Cong. Rec. S12919 (daily ed. October 3, 1984) and 49 Cong. Rec. E4434 (daily ed. October 10, 1984), both Senator Mathias and Representative Kastenmeier suggest that "[i]n making determinations of good faith efforts and progress..., the Secretary should take into account the attitudes and efforts of the foreign nation's private sector, as well as its Government. If the private sector encourages and supports action toward chip protection, that progress is much more likely to continue... With respect to the participation of foreign nationals and those controlled by them in chip piracy, the Secretary should consider whether any chip designs, not simply those provided full protection under the Act, are subjected to misappropriation. The degree to which a foreign concern that distributes products containing misappropriated chips knows or should have known that it is selling infringing chips is a relevant factor in making a finding under section 914(a) (2). Finally, under section 914(a) (3), the Secretary should bear in mind the role that issuance of the order itself may have in promoting the purposes of this chapter and international comity."

The Commissioner is considering issuing an interim order extending the protection of chapter 9 of title 17 of the United States Code to the nationals, domiciliaries, and sovereign authorities of Austria. Written comment on the request of the petitioners and requests to testify must be received in the Office of the Commissioner of Patents and Trademarks on or before 5:00 P.M., April 25, 1989. A public hearing is scheduled for May 4, 1989, at 1:00 P.M. to received further public comment on this petition.

DONALD J. QUIGG
Assistant Secretary and Commissioner of Patents and Trademarks

---

February 24, 1989

Mr. Donald J. Quigg
Commissioner of Patents and Trademarks,
United States Department of Commerce,
Patent and Trademark Office
Box 4
Washington D.C. 20231
U.S.A.

Dear Sir,

The Austrian Patent Office takes the honor to present a petition in accordance with Section 914 SCPA to issue an order for an interim protection under Chapter 9 with respect to nationals, domicilaries and sovereign authorities of Austria.

As to the respective requirements which we ask to have evaluated according to Section 902, in respect to the Austrian legal and effective situation we like to communicate the following to you:

Austria has enacted a Federal Law of June 23, 1988, on the Protection of the Topographies of Microelectronic Semiconductor Products (Semiconductor Protection Law) which entered into force on October 1, 1988. The English translation of the text which was furnished in cooperation between WIPO and the Austrian Patent Office, is published in the January review of WIPO "Industrial Property".

The Law gives, upon request, an exclusive right to the creator of a topography defined as a three-dimensional structure of micro-electronic semiconductor products. It provides for a sui generis form of protection modelled along the lines of patent protection, and accords protection on the basis of originality resulting form an intellectual effort on the part of the creator who produced a topography which was not commonplace. Compulsory licenses are not provided for. The effect of the protection shall not extend to acts of reverse engineering (Section 6 (2)). The innocent infringer is protected (Section 6 (7)).

The Law provides for a registration system, without examination as to substance. Protection under the Law will be accorded for a maximum period of ten years after the commencement of protection. Among the other provisions are provisions relating to the establishment of a register in the Patent Office, cancellation proceedings to be conducted in the Patent Office, and both civil and criminal court proceedings for infringement.

Protection under the Law is available to both nationals of and residents in Austria and, on a reciprocal basis, to nationals of, and residents in, States party to an intergovernmental agreement to which Austria is also party, or of States identified in ordinances of the Federal Minister for Economic Affairs (Section 5 (1) and (2)). The Austrian Law does not provide for the possibility of interim extended protection. After the reciprocity has been established the same protection will be granted to foreigners as to Austrian nationals and domicilaries. Such an extension would be permanent. In this connection the Austrian Government will declare its intention to extend the protection to US mask works by an ordinance of the Federal Minister for Econmic Affairs.

We therefore are of the opinion that the statutory criteria for eligibility under Section 902 (a) (2) SCPA would be met insofar as the protection afforded under the Austrian Law is substantially the same as that provided for under the SCPA.

Austria is not only one of the first European Countries having enacted a law taking into account the international standards in this field but it also took an active part on the preparatory work in respect to the Diplomatic Conference in Washington in May 1989, and will be represented in this conference in order to cooperate in finding solutions for all acceptable.

Having demonstrated this situation in view to make evidence that Austria has been making good faith efforts and reasonable progress as required in Section 914 we would ask you to find the initiation of an evaluation for the issuance of a Section 902 proclamation in favor of owners of mask works who are Austrian nationals, domicilaries or sovereign authorities appropriate.

Encl.

Yours sincerely,

Dr. Josef FICHTE

President of the
Austrian Patent Office

Subject of Protection

1.-(1) Protection under this Federal Law may be obtained, upon request, for three-dimensional structures of microelectronic semiconductor products (topographies) if and insofar as they are original (Section 2).

(2) The protection of a topography of a semiconductor product under subsection (1) shall not apply to the concepts, processes, systems, techniques or stored information contained in the topography, but only to the topography as such.

Originality

2.-(1) A topography shall be original if it is the result of its creator's own intellectual effort and is not commonplace in semiconductor technology.

(2) A topography consisting of an arrangement of portions that are commonplace in themselves shall nevertheless be protected insofar as the arrangement is original as a whole.

Right to Protection

3.-(1) The right to semiconductor protection shall belong to the creator of the topography.

(2) If the topography has been created in the course of employment or otherwise on commission of another person, the right to semiconductor protection shall belong, where not otherwise agreed, to the employer or the person who has given the commission.

(3) Where the person entitled under subsections (1) or (2) is unable to assert his right for failure to satisfy the requirements of Section 5 and where the topography has not previously been commercially exploited by another person or has only been exploited confidentially, the right shall belong to the person who has received from the entitled person an exclusive authorization to commercially exploit the topography for the first time in the country other than confidentially. Assertion of such right through an application shall cause the right based on subsections (1) and (2) to lapse.

(4) The right to semiconductor protection (subsections (1) to (3)) shall be assignable.

Lapse of Right

4. The right shall lapse 15 years after the day of first fixation if the topography has up to that date been neither

1. commercially exploited, other than confidentially, nor

2. filed with the Patent Office.

Assertion of Right

5.-(1) The right to semiconductor protection (Section 3) may only be asserted by Austrian nationals or by natural persons who have their permanent domicile in the country and by legal entities and associations under commerical law that are not incorporated and that possess a real and effective establishment in the country.

(2) Other persons may only assert a right to semiconductor protection if they possess the nationality of the State that affords persons or firms within the meaning of subsection (1) the same protection or if they have their permanent domicile or a real and effective establishment in such State and reciprocity has been established by international agreement or by order published in the *Federal Law Gazette* by the Federal Minister for Economic Affairs.

Effect of Protection

6.-(1) Semiconductor protection shall have the effect that the owner of the right may prohibit others, for commerical purposes, from:

1. reproducing the topography or its independently exploitable portions or producing representations for the manufacture of the topography;

2. offering, putting on the market or distributing, or importing for such purposes, representations for the manufacture of the topography or a semiconductor product containing the topography or its independently exploitable portions.

(2) The effect of protection of the topography shall not extend, in particular, to

1. acts done for non-commercial purposes,

2. reproduction of the topography for the purpose of analysis, evaluation or teaching, of

3. the commercial exploitation of a topography created on the basis of such analysis or evaluation and which is itself original (Section 2).

7. Semiconductor protection shall not have effect with respect to a person who acquires a semiconductor product without knowing or without being assumed to know that it contains a protected topography; as soon as that person knows or is assumed to know that the topography is protected by a semiconductor protection right, he shall be required to pay to the owner of protection, at the latter's demand, for any further commercial exploitation of the previously acquired semiconductor product, an adequate compensation in accordance with the circumstances. The owner of protection shall be entitled to require the rendering of accounts in accordance with Section 151 of the Patent Law 1970 (BGBl. No. 259).

Commencement and Duration of Protection

8.-(1) Protection shall commence on the day of the first commercial exploitation, other than confidential, of the topography, if the latter is filed with the Patent Office within two years or on the day of filing with the Patent Office, if the topography has not been previously exploited commercially, or has only been exploited confidentially.

(2) Protection shall terminate at the latest on expiry of the tenth calendar year after the year of commencement of protection.

(3) Protection can only be enforced once the semiconductor protection right has been entered in the Semiconductor Register.

Application Requirements

9.-(1) Applications in respect to topographies shall be filed in writing with the Patent Office. A separate application shall be filed for each topography.

(2) The application shall contain:

1. a request for registration of protection of the topography in the Semiconductor Register and a brief and precise designation thereof (title);

2. materials identifying or illustrating the topography or a combination thereof and, in addition, where appropriate, the semiconductor product itself;

3. the day of first commercial exploitation, other than confidential, of the topography, where such day is earlier than the application; and

4. particulars from which the right to semiconductor protection under (Section 3(3) results and particulars concerning the entitlement to assert the right (Section 5).

(3) The request shall be subject to a fee of 3,000 schillings.

(4) The detailed requirements for application as well as the materials to be furnished shall be laid down in a decree issued by the Federal Minister for Economic Affairs, whereby attention shall be paid to introducing provisions that are as effective, speedy, simple and economic as possible and that take into account the needs of the semiconductor industry and the current status of technical development.

Semiconductor Register

10.-(1) Where the application complies with the requirements of Section 9 and of the decree under that Section, the semiconductor protection right shall be entered in the Semiconductor Register kept by the Patent Office, without further examination.

(2) The Semiconductor Register shall contain the number, title, filing date and, where appropriate, the date of first commercial exploitation, other than confidential, of the topography (Section 9(2)3) as well as the name and place of residence of the owners of the protection and of their representatives. The commencement, expiry, nullity, lack of title and transfer of rights of protection, grant of licenses, liens and other rights *in rem*, restoration of rights, declaratory statements and disputes shall also be entered in the Register.

(3) Any person may inspect the Semiconductor Register.

(4) The detailed provisions on the Semiconductor Register shall be laid down in a decree issued by the Federal Minister for Economic Affairs, whereby the maintenance of industrial and business secrets and also the need for public information shall be taken into account.

(5) The materials filed in accordance with Section 9(2)2 and, where appropriate, the semiconductor product itself shall be kept for a period of six years after the end of semiconductor protection. On expiry of this period, the last owner of protection entered in the Semiconductor Register shall be given a time limit to recover the materials and, where appropriate, the semiconductor product. If he does not comply within the time limit, the materials and, where appropriate, the semiconductor product shall be destroyed by the Patent Office.

(6) Where an application does not lead to entry in the Semiconductor Register, the period of storage shall be one year computed from the date on which the refusal decision takes force.

Publication

11. Entries in the Semiconductor Register (Section 10(2)) shall be published in the Patent Gazette [Patent-blatt].

Transfer; Licenses

12.-(1) A semiconductor protection right may be transferred as a whole or conceptual in shares. It shall be inheritable; it shall not pass to the State.

(2) Any transfer shall be entered in the Semiconductor Registry and shall become effective on entry.

(3) License rights may be acquired in respect of a semiconductor right. License rights shall be entered, upon request, in the Semiconductor Register; through the entry they shall be effective also in respect of third parties.

(4) The provisions of Sections 27 and 37 of the Patent Law 1970 shall otherwise apply *mutatis mutandis*.

Declaration of Nullity

13.-(1) Any person may request that a specifically designated semiconductor right be declared null and void if

1. the protected topography was not protectable (Sections 1 and 2),

2. the right to semiconductor protection under Section 4 had lapsed or the time limit for application (Section 8(1)) had lapsed without use having been made of it.

3. entitlement to assert the right (Section 5) was lacking or subsequently ceased to apply, or

4. the materials under Section 9(2)2 did not correspond to the semiconductor product where filed.

(2) The final declaration of nullity shall be retroactive to the commencement of protection (Section 8(1)); where the declaration of nullity is based on the fact that entitlement to assert the right has ceased to apply (subsection (1)3), the final declaration of nullity shall be retroactive to the time at which the semiconductor right became contestable.

Declaration of Lack of Title

14.-(1) The owner shall be declared to lack title to the semiconductor right if it is proven that he was not entitled to the claim the grant of such right (Section 3).

(2) Only the person having the claim to the protection right shall have a claim to declaration of lack of title in respect of the semiconductor right and such a claim shall become statute-barred against a *bona fide* owner of protection after three years of the date of entry in the Semiconductor Register.

(3) Where the applicant's claim is allowed, he may, within one month of the decision becoming final, request transfer of the semiconductor right to himself, subject to his being entitled to assert the right to semiconductor protection (Section 5).

(4) Failure to request such transfer in good time shall be deemed equivalent to renunciation of the semiconductor right.

Requests for Declaration

15.-(1) Anyone who commercially exploits a topography, particularly by offering, putting on the market, distributing, or importing for such purposes, a semiconductor product containing a topography, or who intends to carry out such acts, may request the Patent Office to issue a declaration against the owner of a semiconductor right or the exclusive licensee that the topography or the semiconductor product containing such topography is neither in whole nor in part subject to the semiconductor right (Section 6).

(2) The owner of a semiconductor right or the exclusive licensee may request the Patent Office to issue a declaration against anyone who commercially exploits a topography, in particular who offers, puts on the market, distributes, or imports for such purposes, a semiconductor product containing a topography, or who intends to carry out such acts, that the topography or the semiconductor product containing such topography is subject in whole or in part to the semiconductor right (Section 6).

(3) Requests under subsections (1) and (2) shall be refused where the person opposing the request proves that infringement proceedings between the same parties, concerning the same topography, instituted prior to presentation of the request for a declaration are pending before a court (Section 21).

(4) A request for a declaration may only relate to a single semiconductor right. The request must be accompanied by materials within the meaning of Section 9(2)2 and, where appropriate, also by the semiconductor product itself, in four copies. One copy of the materials and, where appropriate, of the semiconductor product shall be attached to the final decision.

(5) In assessing the scope of protection of the semiconductor right that is the subject matter of the declaratory proceeding, the Patent Office shall take into account the state of the art proven by the parties.

(6) Where the behavior of the opposing party has not given reason for the filing of the request and that party has recognized

the claim within the period of time stipulated for the reply, the cost of proceedings shall be borne by the requesting party.

Competence

16.-(1) The Semiconductor Register shall be kept by the Patent Office.

(2) The decision on entry in the Semiconductor Register (Section 10) shall be taken by the technical member competent according to the distribution of responsibilities.

(3) Decisions in matters relating to granted semiconductor rights shall be taken, except where the courts, the Supreme Patent and Trademark Chamber or the Appeals Section or the Nullity Section of the Patent Office are competent, by the legal member of the Legal Section competent according to the distribution of responsibilities.

(4) The Appeals Section and the Nullity Section shall take their decisions composed of three members, one of whom shall preside. The presiding member and one further member must be legally qualified.

(5) Sections 58 to 61 and 74, 75, and 76(1), (4) and (5) of the Patent Law 1970 shall apply.

Procedure

17. Where not otherwise stipulated, Sections 52 to 56, 64, 66 to 73, 77 to 79, 82 to 86, 112 to 126, 127(1), (2), (4) and (5), 128, first sentence, 129 to 145, 168 and 169 of the Patent Law 1970 shall apply *mutatis mutandis* to procedure; the procedural fee laid down in Section 132(1)*(b)* of the Patent Law 1970 shall correspond to the application fee in patent proceedings.

Inspection of Files

18.-(1) The parties to proceedings shall be entitled to inspect files relating to the proceedings.

(2) Any person may inspect files concerning granted semiconductor rights-with the exception of records of deliberations and those parts of the files relating to internal business-, subject to the following provisions. Such inspections shall also apply to the materials and, where appropriate, to the semiconductor product itself filed with the application under Section 9(2)2, with the proviso, however, that inspection of materials that contain industrial or commercial secrets and have been designated as such by the applicant in the application shall only be granted in nullity, lack of title or declaration proceedings on the instructions of the Nullity Section or in a legal dispute concerning the infringement of the semiconductor right on the instructions of the court, in respect of persons who are party to the nullity, lack of title or declaration proceedings to the legal dispute. Materials required to identify or illustrate the topography may not be designated as a whole as industrial or commercial secrets.

(3) Secrecy under subsection (2) shall not prevent inspection of files by that person against whom the owner of protection has invoked his right.

Representation

19. The provisions of Section 21 of the Patent Law 1970 shall apply to representation in proceedings before the Patent Office and before the Supreme Patent and Trademark Chamber.

Obligation to Furnish Information

20. Any person who designates articles in such a way as to create the impression that they enjoy semiconductor protection shall be required, on request, to provide information on the right on which the designation is based.

Infringement of Semiconductor Rights

21.-(1) Any person who has suffered an infringement of his semiconductor right (Section 6) may take action under Sections 147 to 154 and 164 of the Patent Law 1970, applied *mutatis mutandis*, for injunction, removal, publication of judgment, appropriate compensation, damages, surrender of profit and rendering of accounts. Any person who has reason to suspect such infringement may also institute action for injunction and for publication of judgment.

(2) Injunction orders can be issued even where they do not fulfill the requirements of Section 381 of the Injunctions Code. Where reasonable grounds exist, the court may withdraw an injunction it has issued if the defendant provides adequate security.

22.-(1) Any person who infringes a semiconductor right (Section 6) shall be condemned by the court to a fine of up to 360 daily amounts.

(2) The same penalty shall be imposed on the owner or director of an enterprise who does not prevent the infringement of a semiconductor right by a person working for him or on his behalf in the course of the activities of the enterprise. Where the owner of the enterprise is a legal entity, this provision shall apply to those organs of the enterprise that have committed such omission. The enterprise shall be jointly and equally liable with the guilty party for the fines inflicted on the organs.

(3) Prosecution shall take place only at the request of the injured party.

(4) In penal proceedings, Sections 160 and 161 of the Patent Law 1970 shall apply *mutatis mutandis*.

Competence

23.-(1) The Commercial Court of Vienna shall have exclusive jurisdiction for actions and injunctions under this Federal Law. Decisions shall belong to the Chamber (Section 7(2), first sentence, Section 8(2) of the Jurisdictional Rules), irrespective of the value in dispute. This shall also apply to injunctions.

(2) Jurisdiction in criminal matters under this Federal Law shall belong to the Vienna District Court for Criminal Matters *[Landesgericht fur Strafsachen Wien]*.

Preliminary Questions

24.-(1) Sections 156 and 157 of the Patent Law 1970 shall apply *mutatis mutandis*, subject to subsection (2), in assessing the validity or effectiveness of a semiconductor right on which an infringement action is based.

(2) Section 156(3) of the Patent Law 1970 shall apply with the restriction that proceedings shall only be interrupted if nullity is claimed on the basis of Section 13(1)1 or 4.

Relationship to the Copyright Law

25. The commercial exploitation of topographies shall not be affected by copyright in works of literature under Section 2(3) of the Copyright Law (BGBl. No. 111/1936) and neighboring rights for photographs under Section 73 of the Copyright Law.

Citations

26. The Federal Law provisions cited in this Federal Law shall be applied in their currently valid version.

Entry into Force

27.-(1) This Federal Law shall enter into force at the start of the third month following its publication.

(2) Decrees based on this Federal Law may be issued as from the day following its publication. However, they may not enter into force until this Federal Law enters into force.

Implementation

28. The following shall be responsible for implementing this Federal Law:

1. with respect to Section 17, where application *mutatis mutandis* of Section 168(6) of the Patent Law 1970 is provided for, the Federal Minister for Economic Affairs, in consultation with the Federal Minister for Finance,
2. with respect to Sections 21 to 24, the Federal Minister for Justice, in consultation with the Federal Minister for Economic Affairs,
3. with respect to all other provisions of this Federal Law, the Federal Minister for Economic Affairs.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions,* and provides technical staff assistance in their use to aid the public, in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System), which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collec patents from either microfilm or paper collections are generallcontemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS AMENDED, CORRECTED, ETC.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Any change to the registration will be indicated at the bottom of each entry under ELEMENTS AMENDED, CORRECTED OR RESTRICTED. With the exception of changes to the goods and services, additions to the registration will appear in asterisks and deletions of the registration will appear in brackets. Elements which are only changed will be listed with no punctuation. As to the goods/services statement, amendments to the goods/services will appear in asterisks and deletions will appear in brackets. In addition if any change to the goods/services occurs, the element "Goods/Services" will be listed under ELEMENTS AMENDED, CORRECTED OR RESTRICTED.
